

**GC723KT**  
**GS#39 – Transferleistung**

**English version:**

**WP01:**

What animal does this star shine on? Number of letters in the German word.

**WP02:**

What article of clothing is hanging above one of the doors? Number of letters in the German word. (You have to go inside in order to identify the respective photo and discover the article.)

**WP03:**

Number of window panes that have the form of a parallelogram? *Iterative* sum of the digits (single-digit).

**WP04:**

Number of *all* double metal bands (not only those visible from both sides) in both gates together? (On the photo, you see one of those double bands.) Sum of the digits.

**WP05:**

The house next to the left (seen from the street) has a building number (not house number); which one? *Iterative* sum of the digits.

**WP06:**

Patent number? *First* digit.

**WP07:**

What part of the body has a lot of work to do here? Number of letters of the German word.

**WP08:**

Walk around the building and count the small window panes that the large round arched windows are composed of. How many are there? *Iterative* sum of the digits.

**WP09:**

Go back about 50 m; there you will come upon a remarkable historic building. Next to the right there is a child with a strange anatomy. How many of his extremities have to be counted as anomalies?

**WP10:**

How many steps in fact lead up to the entrance of the passageway? (There are less than those visible; odd number.)

**WP11:**

What is written in red letters on the white sign (prohibiting something) above? Number of words.

**WP12:**

How many are looking left?
